## **CALIFORNIA REPUBLICAN PARTY ENDORSES GREG KRIKORIAN FOR STATE ASSEMBLY**

**BURBANK, CA, 22 August 2012** - In another sign that support for Greg Krikorian's State Assembly campaign is growing, the [California Republican Party \(CRP\)](#) has endorsed Greg Krikorian for State Assembly in the 43rd District.

"With November in sight, I am honored to receive the support of the California Republican Party," says Greg Krikorian, candidate for California State Assembly in the 43rd District. "The support of my Republican colleagues is essential as Californians are looking for sustainable solutions amidst a fiscal disaster that has produced the third-highest unemployment rate in the country. I will continue to work hard to ensure my campaign speaks for the people of California who are tired of watching our state suffer at the hands of irresponsible leadership."

The endorsement comes at a time when Californians are waking up to the reality that for decades, the legislature has placed burdensome restraints on small business owners, passed unfunded mandates, and made it impossible for people to do business in California without paying exceedingly high taxes. Together, Greg Krikorian and the California Republican Party stand in opposition to Governor Jerry Brown's tax increase measures on the November ballot.

But Republicans are not alone. The June 5<sup>th</sup> primary was a preview leading to what could be a non-partisan referendum against irresponsible governing on Election Day, November 6, when Greg Krikorian looks to unseat Mike Gatto from the California State Assembly's 43rd District.
